

Be A Georgia TSA Event Sponsor

The Georgia Technology Student Association moves into its 55th year in 2016-17. This organization is the co-curricular career and technical student organization to the Engineering & Technology Education Pathway Courses in Georgia's middle and high schools. We are an affiliate of National TSA. GA TSA is all about "Learning to Live in a Technical World". Embracing innovation and evolution over the last half a century, the mission of GA TSA is to prepare its membership to be successful leaders and responsible citizens in a technological society through co-curricular activities within the technology education program; which include communication, leadership, and competitive skill development in modern classroom/laboratory environments.

The heart of TSA is its competitive events. Combined, there are almost 70 individual and team events on separate middle and high school levels. Student members are challenged with contests that reflect our engineering and design focus as well as leadership skills. The GA State Leadership Conference in Athens is our "Super Bowl", where over 2500 Georgia Engineering & Technology Education Students converge to exhibit their talents and skills through competition.

We invite you to show your support for the future designers, inventors, innovators and engineers and be a conference sponsor or sponsor one or more of our events.

Your sponsorship will provide three trophies and a scholarship to help the winner represent our state at the National TSA Conference. In return for your contribution, your logo will appear on the trophies for the event(s) you sponsor. In addition, your company or organizations logo will be recognized on the GA TSA website, in the State School Scene newsletter, in the conference program, pre-session looping PowerPoint slides, logo on the trophies, and a representative will be recognized and allowed the opportunity to assist with the presentation of awards on Saturday.,

The Conference Sponsorship information is on the other document. We also offer individual event sponsorship for \$500. Sponsor multiple events for \$400 each. Your contribution can be mailed to the address below or can be made electronically via our website PayPal link.

Thank you for supporting the technologically literate students that represent the next generation of American designers, inventors, innovators and engineers that will make this country great again.
